OVERVIEW

The CafeConnect project is crafted to make managing a cafe's essentials seamless, from inventory to orders. It ensures you never run out of ingredients, keeps track of sales, and makes order-taking smooth and efficient. Whether it's adding new items to the menu or refilling ingredients, this tool gives you full control in a simple interface. It's designed to let the team focus on what they do best – serving great food and drinks!

KEY FEATURES

Manage Ingredients

Track ingredients with ease. Add, update, and refill stock quantities in a snap, ensuring your pantry is always ready to meet customer demand

Customizable Menu

Create and manage a diverse menu with items that suit your cafe's style. Define each item's ingredients, cost, and required quantities, all in one place.

Streamlined Billing

Generate detailed customer bills with just a few clicks. The system calculates the total based on quantity, helping you keep orders accurate and customers happy.

Sales and Earnings Reports

Check daily sales stats and keep an eye on your profits, giving you valuable insights into what's working – and what's brewing for improvement.

Admin and Customer Modes

Separate admin and customer modes ensure that sensitive functions (like ingredient management) are only accessible by authorized users, while customers get a smooth ordering experience.

CONCLUSION

Cafe Manager takes the hassle out of daily operations, making inventory, orders, and sales tracking refreshingly simple. With everything organized and just a few clicks away, it's your go-to tool for smooth, efficient management. This way, you can focus on delivering great experiences to your customers and keep your cafe running effortlessly.
